

BBA ENTREPRENEURSHIP

Future-Ready Innovators

Contrary to popular belief, entrepreneurs are not just business owners or business founders, they are business-minded individuals, who hold contrarian beliefs and are capable of building something from nothing. In an article by Forbes, the statistics revealed that 90% of startups (and the entrepreneurs also) fail in their first four years. Though the statistics may seem alarming, it still holds.

Understanding the secret ingredient for entrepreneurial success and what sets successful entrepreneurs apart from the not-so-successful ones is the most important and fundamental aspect of entrepreneurship and a precursor to success.

At Academic City, we believe in, practice and have adopted the experiential method of teaching to give students an inside-outside feel of the Entrepreneurship program.

Entrepreneurship at ACity

The Bachelor of Business Administration in Entrepreneurship program aims to provide students with a thorough understanding of developing businesses from a practical perspective, thus, grounding students in enterprise management. The program equips students to build competence in entrepreneurial and management functions with requisite skills and knowledge that enables them to work across various disciplines and set up their business.

It provides exposure to both the fundamentals of business innovation and the practical aspects of identifying, evaluating and moving business ideas forward.

The course takes a dynamic and multi-disciplinary approach, thereby exposing students to different components of the entrepreneurship model ranging from the commercialization of successful innovations or business ideas to the creation, management and administration of a business.

Top Careers In Entrepreneurship

Perhaps, the best thing about a degree in BBA Entrepreneurship is the flexibility and opportunity it provides to monetize any passion or interest. With a degree in the program, you could be a:

-  Founder of a Business
-  Business Manager
-  Product Manager
-  Franchisee
-  Consultant

Why ACity?

Home to
students from over
23 countries
across Africa

A fully digitized
campus with the fastest
internet speed
in a Ghanaian university

70%
practical lessons

**Experienced
faculty**

& Innovation**

Our Unique Learning Pillars

Experiential Learning

Hands-on learning to prepare students to readily apply concepts, to easily integrate into the workspace.

Contextual Learning

Solving real grass-root problems to expose students to the local context and develop empathy towards the continent's progress.

Unified Learning

A project-based approach that combines concepts across courses to connect the dots and enable unified learning.

Extensional Learning

Arms students with a viable toolkit to help them confront real-life issues, they may not have encountered during their academic life, squarely.

Entry Requirements

WASSCE/NECO
